

Sustainability in the Park Inn by Radisson Berlin Alexanderplatz

The certification „Green Sign Level 4“ awarded by InfraCert – Institute for Sustainable Development in the Hotel Industry – confirmed that the sustainability concept of the Park Inn by Radisson Berlin Alexanderplatz is implemented and lived in almost all hotel areas.

Also, as a member of the Radisson Hotel Group the Park Inn participate in the Responsible Business Program which works on climate protection for many years.

The sustainability concept includes the following key points:

- In-house waste separation department
- Utilisation of a paper press engine
- Accurate disposal of hazardous waste
- Grease separator in the kitchen
- Installation of a building management system
- Periodic measurement and evaluation of water and energy consumption
- Use of LED lights and more energy saving resources
- Application of water saving technics
- Implementation of „Green Clean Button“ for our guests
- Cleaning just with environmentally acceptable products
- Regional suppliers
- Vegetarian, vegan and regional cuisine
- There only few or no single use items in the restaurant
- Electric charging station for guests
- Responsible Business staff trainings for Think Planet, Think People and Think Community
